

ANEXO N°8

PLANTA Y LONGITUDINAL DE LA SOLUCIÓN ELEGIDA

En el presente anejo se incluyen las plantas y perfiles longitudinales de la solución elegida.

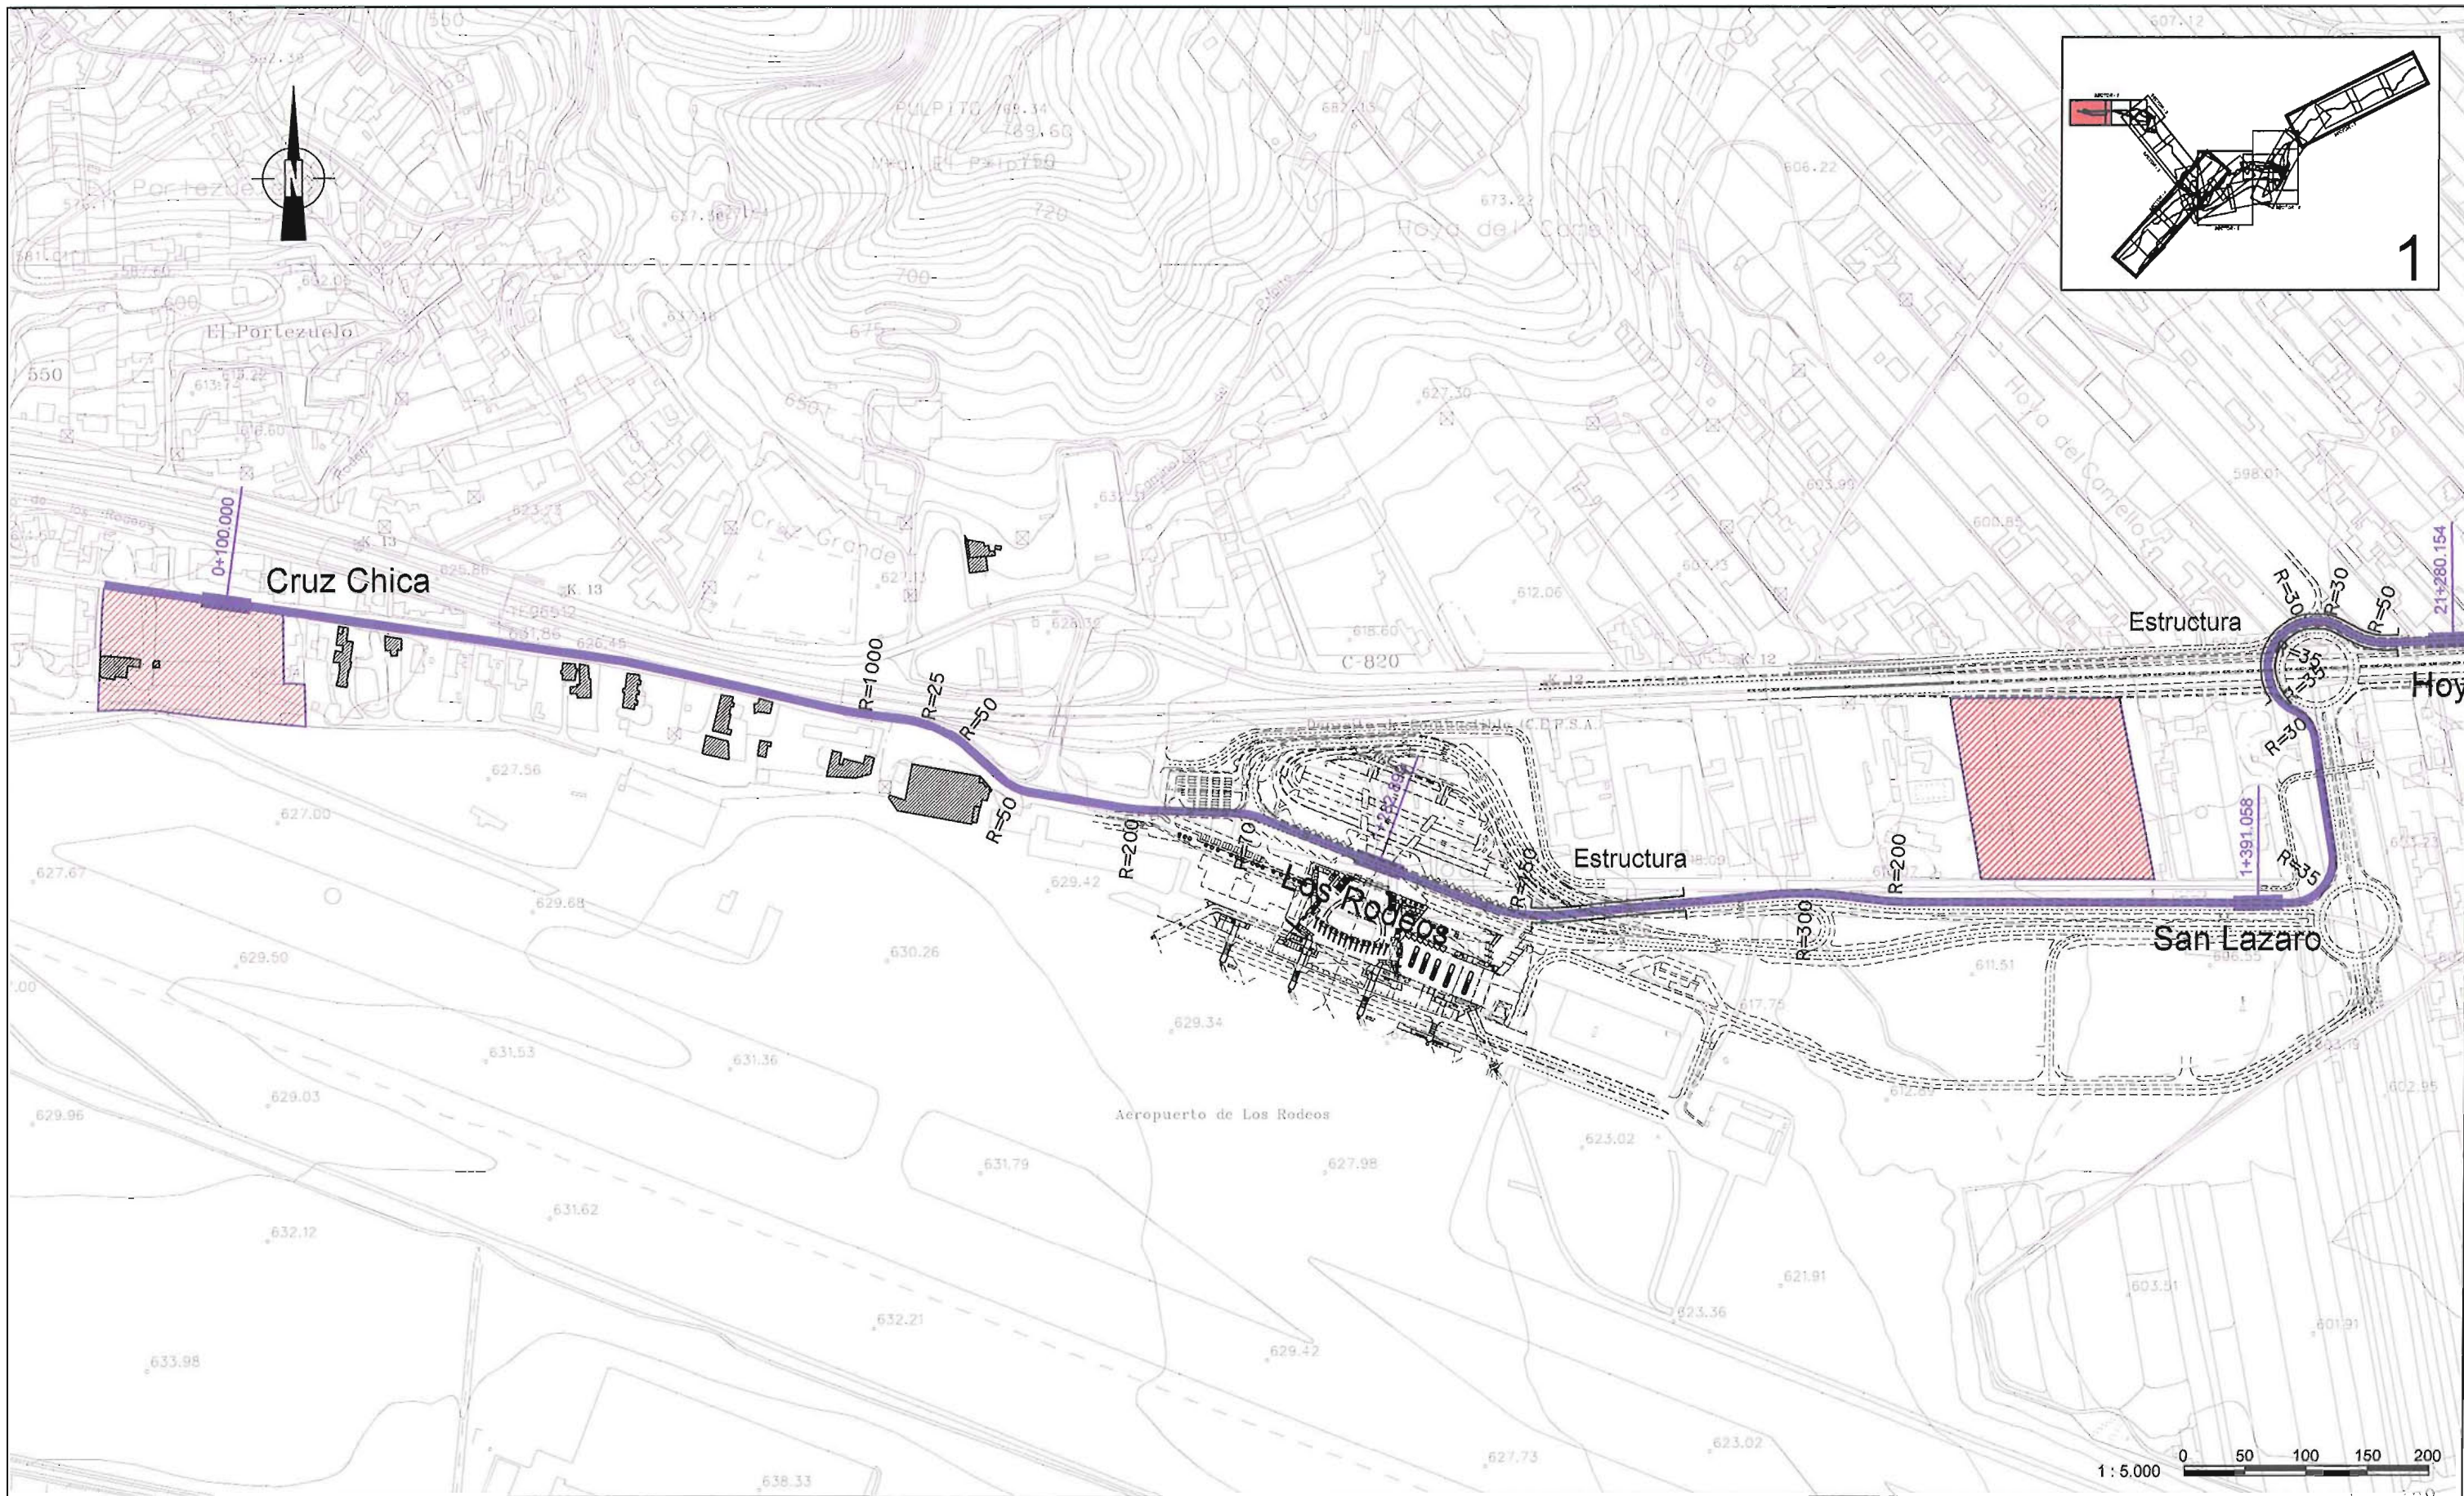

El trazado así como el número y situación de paradas debe considerarse como provisional ya que el objetivo de la elección de esta fase de estudio es la definición de la calle por la que discurre el tranvía.

En futuras fases del estudio, proyecto básico, se definirá la posición y número exacto de paradas así como la sección transversal de las atravesadas.
